

Paschalis Veskos

Poeticon++ @ CSRI, Athens Greece

- Goal: learn about icub motor representations
–integration with Praxicon system
- Played with yarp, icubsim, icub modules,
meetings, swimming :)

The diagram illustrates the Poeticon++ system architecture. It features three main components: a large blue box on the left representing the PRAXICON system, a central black box with a white Nike logo and the text 'JUST DO IT.', and a smaller blue box on the right labeled 'robot'. An arrow points from the PRAXICON box to the central black box, and another arrow points from the robot box to the same central black box. Below the central black box, the text 'DO WHAT?' is written.
